

## "The Kimball Piano Ranks with the Best"

Says Pol Plancon

This noted artist isn't alone in singing the praises of the "KIMBALL." It has over 190,000 friends—more than that number of Kimball Pianos having been made and sold—and each purchaser has nothing but praise and endorsement for the instrument. It is its inherent value that has secured such extraordinary popularity.

### Observer's Observations

I observe that in Salt Lake City they tax everything even to one's nerves and patience. That there are a few fanatics on one side of the prohibition question, and some fools on the other side for a balance. That a man who will get drunk and whip his wife just because he is told he shouldn't drink is a fool either way you take him. That there are some people who would be far better off if their morals were regulated by law. That according to the argument of some anti-prohibitionists the whole world is a pack of fools. That there are some people in Salt Lake City who are afraid that the Republican party won't keep its pledge with the liquor dealers. That the Deseret News and the Smoot "Mouth" are having a tilt over the liquor question. It is the pot calling the kettle black. That there are some eating houses in Salt Lake City whose principal bill of fare is found on the drink list. That one prominent saloon annex is patronized by the gentlemen in long coats. That the "Mouth" is wide open for whiskey, nor is it the only open one. That the fool-killer hasn't visited the legislature yet. That there is mighty little difference in the grade of the man behind the bar and the one in front of it. That a slave to prejudice is as big a fool as a slave to strong drink. That the other fellow's life is under consideration. That the law prohibiting housebreaking doesn't prohibit. Let's repeal the law quick, or some poor devil will make of himself a felon. That the law prohibiting polygamy doesn't prohibit. Why not repeal the law and thus save the many of our Mormon friends from becoming liars or felons, or both? That the whiskey is pretty only that lubricates the press at the "Mouth" office.

**CLARK INTERESTS TO START POWDER FACTORY**  
SAN FRANCISCO, Feb. 21.—Backed by the interest headed by Senator William A. Clark of Montana, a powder manufacturing company, beginning operations with a capital of \$2,000,000, will shortly erect a plant in one of the bay counties and engage in active competition with the powder trust, according to a statement made in this city. Associated in the enterprise, it is said, will be John Berningham, formerly general manager of the Dupont Nemours Powder company; J. A. Folger, head of a local mercantile concern; and former State Senator Charles M. Bolshaw. The plant, it is believed, will be located in the vicinity of Antioch.

The powder trust operates numerous factories in this state, and several of these are located on the shore of Lake Tahoe. It is stated that, although the government is a large manufacturer of powder for its own use, it purchases fifty-five per cent of its explosives from the trust. It is the plan of the Clark company to compete for the business and to put the trust out of the business. The operations of the company will be under the personal direction of Mr. Berningham.

### DISCOVER CLEVER PLAN TO SMUGGLE CHINESE

SAN LUIS OBISPO, Cal., Feb. 21.—An organized plan to smuggle Asiatics into this country may be unearthed as a result of the discovery of twenty-two Chinese in a box car in this city today. The most peculiar feature of the discovery was that the Celestials were in a bonded car, sealed with the government stamp. The car was billed from Alameda, a town near New Orleans, where it left on February 10, and was billed to San Francisco. On its way to the Southern Pacific. While passing the sealed box car in the yards today, Conductor Page heard of the discovery. In response to a question who was in the car, he received an offer of \$5 for a bucket of water. In the pigeon hole of Chinese. The sheriff's office was notified, the seals broken and twenty-two half-breed Chinese taken out. All had large canisters, but which, during the long journey had been drained of every drop of water. They had crossed the Mexican border at El Paso, but refused to give any further information. They were placed in the county jail and are being held pending the arrival of immigration inspectors from San Francisco.

### FORMER JOCKEY HEIR TO SUG LITTLE FORTUNE

### WYOMING REGULATING THE LIQUOR TRAFFIC

CHEYENNE, Wyo., Feb. 21.—Anti-liquor legislation was the feature of the session of the state legislature, which closed this morning. Among the new laws enacted were those absolutely prohibiting the sale of liquor outside of incorporated cities, and increasing the county license to \$1000. It is estimated these laws will put 200 saloons out of business throughout the state. The office of tax commissioner was

created and W. A. Richards, former commissioner of the United States land office, was appointed first commissioner.

## UPWARD TREND IN STOCKS EVIDENT

During Last Week Has Been One to Discourage Bull Forces.

### IMPROVING VERY RAPIDLY

Requirement Taken as Favorable Sign.

NEW YORK, Feb. 21.—The light and airy currents of the speculative sentiment in the stock market veered decidedly toward optimism in the last week and carried values upward. The deciding factor was the evidence of languishing trade as indicated, especially in the iron and steel industry. The halt in the revival of business has been perceived for several weeks past and the growing misgivings, on the part of the United States Steel corporation, was announced to be for conservation of stable conditions by reduction of prices based on the conviction that a reduction of prices at this time would fall of effect on demand.

It was asserted that the waiting on the part of new tariff schedules was a factor in the withholding of orders. It was urged that such cutting of prices as was being done was by small steel companies, and that the large ones placed represented so small a part of the total business as to be unrepresentative of trade conditions. In reports that a cut in prices of steel was in contemplation were as perfectly denied, the latest denials came from accredited official sources. The effect on speculative sentiment was confirmed by the support accorded the stocks by the United States Steel corporation.

Steel Trade as Factor.  
The impression thus came to be held that the steel industry was not so much in a state of depression as it was generally supposed to be. The industry was to await patiently the disturbing effect of a cut in prices and a struggle for readjustment.

Copper Stocks Firmer.  
Comparative firmness of the copper stocks was furthered also by the statistics given out early in the week. The report of the foreign situation of important effect on all financial markets. The definite promises of growth in the foreign money markets, the settlement of international questions, the put a stop to the persistent pessimism of foreign holders of American securities and has given place to a feeling in New York on orders from

What better use can you make of a nickel than to exchange it for a cake of Ivory Soap?

What else will give you so much satisfaction?

What other soap can be used for so many different purposes; for the bath, the toilet and for fine laundry use?

Ivory Soap  
99 1/2 Per Cent. Pure.

### SORE HANDS

Itching, Burning, Bleeding. Cured by Cuticura. Wash the hands on retiring, in a hot, soapy suds of Cuticura Soap. Dry and anoint freely with Cuticura Ointment. Bandage lightly in old cotton or wear old gloves. This treatment is priceless for softening, whitening and soothing red, rough, and chapped hands, and for dry, itching and equally effective for sore feet.
